

Tactical LEO Rifle and Pistol 2 Day/16 Hour Vehicle Assault Course (\$575 per participant)

Description: This 16 Hour/2-day course will focus heavily on the necessary individual operator and instructor level skillsets to successfully conduct tactical pistol and rifle blocks of instruction on static and dynamic ranges intended for Close Quarter Battle (CQB) and typical domestic law enforcement operations. Vehicle assaults and vehicle counter ambush tactics will also be taught during this course to include a live fire vehicle ballistic lab. This course will cover a wide range of weapons handling, weapons manipulation, and accuracy ensuring all participants have a beginner, intermediate, and advanced level of instruction down. Upon completion of this course, participants will have the necessary points of performance and knowledge to instruct various levels of officer experience within their respective units.

This course will morph and blend weapons handlings and accuracy blocks of instruction with real world, live fire practical and tactical training evolutions ensuring the participants not only know how to instruct the basics of pistol and rifle accuracy and weapons handling, but also know how to implement a training plan and block of instruction in a live fire, dynamic yet practical training environment. Dynamic fire and maneuver in and around vehicles will also be taught in depth during the vehicle assault blocks of instruction. This course will also explain the major tactical differences between deliberate and dynamic CQB tactical shooting with both pistols and rifles ensuring the officers have the knowledge and skill level to implement departmental or agency shooting standards for their respective units.
