4.8 ★★★★★ (3,805 Reviews)

"Most valuable to me were the practical simulations, particularly when placed in command positions — outside my comfort zone. Training in real time was very useful. I liked this wasn't a dreaded 'death by powerepoint' class. The emphasis on scenarios was excellent for learning. All ICS classes should be conducted like this!"

A MASTER CLASS IN ACTIVE SHOOTER INCIDENT MANAGEMENT

ASIM ADVANCED

PER-353 Active Shooter Incident Management with Complex Incidents (24 hour)

11 Full-scale Exercises

60 Participants

- 30 Law Enforcement
- 20 Fire / EMS
- 5 Dispatch
- 2 PIO
- 2 Emergency Mgr
- 1 Helicopter Pilot

3 Days / 5 Instructors

Exercise Tool

NIMSPro™ 3D Multi-Responder Simulation

From beginner to advanced in 3 days. Each day has short lectures and lots of hands-on practice.

Experience Managing Active Shooter Incidents

The goal is simple — decrease the time to neutralize the threat and get injured to a hospital, and save more lives. This ASIM Advanced course provides you with the **experience** and **confidence** to manage an Active Shooter Event, no matter your rank or day-to-day assignment.

Date: September 1 - 3, 2026

Time: 08:00 to 17:00

Location: Tony's Pizza Event Center: 800 The Midway, Salina, KS 67401

Registration Contact: Click here to register or go to <https://forms.gle/xbhaW4MZhjopUztTA>

Notes: Government Issued Photo ID Required

PARTICIPANTS

30 Law Enforcement

From patrol officer to the Chief, you will experience the full range of law enforcement assignments. Participants will rotate through Contact Teams, Rescue Task Forces, Tactical Group Supervisor, Staging Manager, Perimeter Group Supervisor, Law Enforcement Branch, Intelligence Section Chief, Incident Command, and Area Command. You will work side-by-side with your fire/EMS counterparts to achieve an integrated response.

20 Fire and EMS

From EMT to the Chief, you will experience the full range of medical assignments. Participants will rotate through Rescue Task Forces, Triage Group Supervisor, Transport Group Supervisor, Staging Manager, Medical Branch, Incident Command, and Area Command. You will work side-by-side with your law enforcement counterparts to achieve an integrated response.

5 Dispatch

You will gain experience using CAD, radios, and phones to manage 911 calls, while also building familiarity with radio traffic, note taking, and benchmarks for law enforcement and fire/EMS during active shooter incidents. Each scenario starts and ends with dispatch personnel.

2 Public Information Officer

You will experience the confusion and chaotic speed of gathering information in an unfolding active shooter incident. Working in the Command Post, you will collect information, develop a press release approved by the Incident Commander, and deliver a live press conference alongside the Incident Commander.

2 Emergency Management

You will experience the confusion and chaotic speed of an active shooter incident serving as Emergency Management at the Command Post and Area Command. As the immediate crisis is brought under control, you will demonstrate the value of emergency management by helping the Incident Commander solve short and long-term challenges.

1 Helicopter Pilot

You will experience coordinating with law enforcement to conduct surveillance missions and fire/EMS to conduct medical evacuation missions during active shooter incidents. Using our high-fidelity seated flight simulator, you will fly a twin-engine helicopter in the same 3D virtual reality environment as law enforcement and fire/EMS responders working on the ground.

ASIM Advanced is a 3-day **comprehensive** course using the national standard **Active Shooter Incident Management Checklist** integrated response process. Eleven full-scale exercises utilize the multi-responder NIMSPRO™ 3D virtual reality simulator that places everyone in the middle of the action.

Participants are trained to integrate and manage a multi-discipline response to a full range of Active Shooter and hostile event threats, including Complex Coordinated Attack (CCA).

The course is appropriate for all ranks of law enforcement, fire, EMS, and dispatch. The course provides hands-on incident management experience for street responders and leaders alike.

Instructors utilize a no-fault, no-embarrassment coaching style to conduct live training with up to 60 students. Exercises include attacks at a train station, school, airport, mall, courthouse, and cruise terminal. Scenarios include active shooter events, suspect at large, reunification, Complex Coordinated Attack (CCA), IEDs, and hostage barricade.
