

# Would you like to become a Child Passenger Safety Technician?

CPS technicians use their knowledge and expertise at a variety of community-based activities, such as child safety seat checks, where parents and caregivers receive education and hands-on assistance.

CPS technicians also keep up-to-date on the latest technical information about child passenger safety through continuing education.

Courses cost \$95 for a 2 year certification. Attendees must attend all three days, including a car seat check lane on the final day.

## May 3-5, 2022

Kansas National Guard Armory

720 Armory Road

Goodland, KS 67735
