# SMUGGLERS INC.® 2.0

"A Comprehensive APPROACH to Identifying Smuggling Tradecraft and Countermeasures"

## Southwest & Midwest Editions

### Course Overview

This fast paced comprehensive 3-Day 24-Hour **proprietary** course was developed and is delivered by 'Shawn Pardazi' of Triple I Solutions based on his personal operational experience of conducting "interdiction Investigations" over a 25 year interdiction career. Specifically designed for officers who work in the **Southwest & Midwest United States Regions**, the course delivers a lesson to assist regional officers in properly identifying "Smugglers" traveling their roadways and solely relies on the most common "Smuggler Tiers" operating in the area. This course DOES NOT deliver "Trends" nor "Statistical" information, but rather operational tactics that can be deployed by the student to be most successful in this specific region.

\* Triple I Solutions does not promote racial/ethnic profiling and policing for profit tactics.

### Topics Include

- Tradecraft Of Smugglers (Region Specific)
- Identifying Smuggling Countermeasures
- Identifying Operational Security Of Smugglers
- Identifying Compartmentalization Tactics
- Understanding the Distribution Operations (Region Specific)
