

AR-15 Advanced Armorer Course Law Enforcement Only

When: October 27-28, 2026 from 8:00-5:00
Where: Lawrence Police Department Training Center
4820 Bob Billings Parkway
Lawrence, KS 66049
Cost: \$500

Day 1	Day 2
History and Rifle Evolution	Advanced Troubleshooting (piston and gas)
Function & Safety Checks	Full Disassembly
Cycle of Operation	Wear Component Measurement
Basic Troubleshooting	Gauging
Field Stripping	Reassembly
Cleaning/ Preventive Maintenance	Lubrication

Students should bring their own rifle, cased, and unloaded. Leave rifle in vehicle until told to bring it to the lab.

All tools, equipment, and manuals will be supplied.

This class will provide the skills necessary to perform armorer inspection for wear, as well as diagnose and mitigate more complex malfunctions of gas and piston AR-15 style rifles. This will include thorough measurement and gauging of wear components to evaluate dimensional tolerance as an overall annual “wellness check” of the rifle and to identify and resolve potential failures before they occur.

Course taught by Ryan Skabroud, President of Precious Metals Gunsmithing, LLC a Wisconsin FFL 07/02 SOT
