

DEFI

Data Exploitation to Further Investigations
Law Enforcement Training

CELLULAR PHONES, TECHNOLOGY, MAPPING & ANALYSIS

WICHITA (KS) POLICE DEPARTMENT

SEPTEMBER 30 – OCTOBER 3, 2025

The way law enforcement conducts criminal investigations must keep pace with technological advancements in our society. DEFI's training focuses on the use of data to solve complex criminal investigations. This hands-on four-day course offers students the opportunity to deeply dive into the common data gathered during investigations.

COURSE TOPICS:

- Law Enforcement Resources
- Cellular Technology & Terminology
- Manual Mapping and Analysis of Call Detail Records (CDRs)
- Historical Cellular Phone Records (AT&T, Verizon & T-Mobile)
- Specialized Location Records (Timing Advance, RTT, etc.)
- Tower Dumps and Area Searches
- Video Evidence
- Social Media Evidence
- Seizing Cellular Phones & Preserving Data
- Data contained within Cellular Phones
- Vehicle Data - Connected Cars & Infotainment Centers
- Report Writing & Testifying
- Two Case Studies involving Cellular Technology

“I have over 1,500 hours of training under my belt, and this was the best hands-on class I’ve ever attended!”
